

Login radar

remote asset data acquisition reporting

RFID

Street Assets

Canister Tracking

Garage Inspections

The Login radar system allows electronic documentation of any field activity performed by vendors or employees. The reader automatically makes a date, time and event record. Error free data transfers allow office staff to spend time scheduling and analyzing exceptions. Field time is dedicated to work rather than writing and telephone calls.

Reader Name	Reader	Record Number	Card #	Date	Time	Type	Checkpoint	Route	Guard	Event	Status
Canister1	2007040500	319	B200CF598	05/09/07	8:15:27 PM	Checkpoint	Bank 002	Route1	Guard Bob		
Canister1	2007040500	320	B200F2358	05/09/07	8:17:04 PM	Checkpoint	Bank 001	Route1	Guard Bob		
Canister1	2007040500	321	B200F2375F	05/09/07	8:18:10 PM	Checkpoint	Bank 003	Route1	Guard Bob		
Canister1	2007040500	322	B200E8F8BC	05/09/07	8:19:45 PM	Checkpoint	Bank 004	Route1	Guard Bob		

Schedule Date	Route	Checkpoint	Patrol Date	Patrol Time	Result	Guard	Schedule Time	Event	Scheduling
05/09/07	Route1	Bank 002			Missed		7:31:05 PM		Auto-Scheduled
05/09/07	Route1	Bank 003			Missed		7:31:26 PM		Auto-Scheduled
05/09/07	Route1	Bank 004			Missed		7:31:26 PM		Auto-Scheduled
05/09/07	Route1	Bank 001	05/09/07	7:31:26 PM	On Time		7:31:26 PM		Scheduled

05/09/07	Route1	Bank 004	05/09/07	8:19:45 PM	On Time	Guard Bob	8:15:27 PM		Auto-Scheduled

Login Radar Software

- Unique electronic serial number identifies assets, checkpoints and users
- Schedule inspections, maintenance, collections, certifications
- Simple event recording of maintenance issues and exceptions in the field
- Track by time and date any field activities
- Powerful software allows easy reporting of missed checkpoints
- Graphical interface for virtual mapping of all route data

Web Based Option

for real-time data collection and field monitoring

RFID Technology Benefits

Non Contact: Can be read through water, snow, fog, ice, paint, dust, wood, concrete and other visual and environmental conditions.

Convenient: Can be installed in multiple ways

Checkpoints: Can easily be hidden in walls to preventing tampering

Intrinsically Safe: Can be installed in potentially explosive areas

Less wear and tear: Readers have no contact with the tags

Long Life: Readers and ID tags last far longer than optical systems
